

Name: Mukund Kuthe

3rd Year Section B (B1)

Practical 1 part1 (JavaScript)

1. Enabling JavaScript

```
<html>
<head>
<script>
document.write("Hello World")
</script>
<noscript>
Sorry...Javascript is needed to go ahead.
</noscript>
</head>
<body>
</body>
</html>
```

2. JavaScript Variables and Case Sensitivity

```
<html>
<body>
<script>
let a= "Hi";
let b= "Hi";
let c= "hi";
document.write("a==b "+ (a==b));
document.write("<br>");
document.write("a!=b "+(a==c));
</script>
</body>
</html>
```

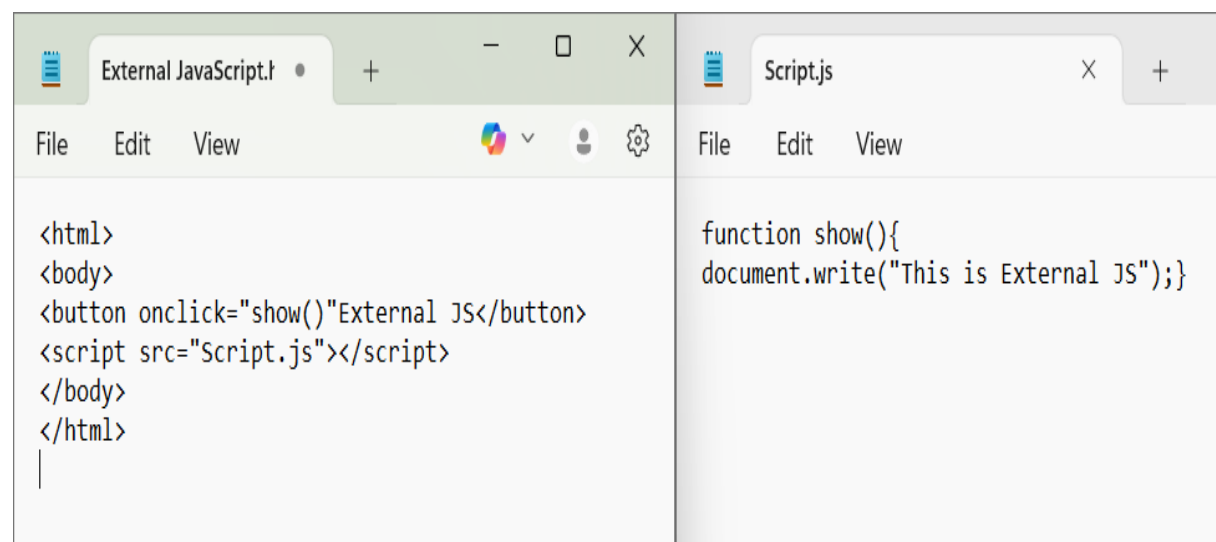

3. JavaScript Keywords (function)

```
<html>
<body>
<script>
function getcalc(first,second){
var mul= first * second;
var add= first + second;
var sub= first - second;
var div= first / second;
document.write("Calculations of "+first+" and "+second+" are <br> Multiplication "+mul);
document.write("<br>Divison is "+div+" <br>Sum is "+add+" and subtraction is "+sub); }
let first= 20;
const second= 5;
getcalc(first,second);
</script>
</body>
</html>
```

Calculations of 20 and 5 are
Multiplication 100
Divison is 4
Sum is 25 and subtraction is 15

4. External JavaScript

□

This is External JS
